

When we asked to profile Certified Master Kitchen and Bath Designer (CMKBD) Mark Haddad in his element, he naturally chose Interiology Design Co.'s Experience Studio in Watertown as the setting. The owner and his team work amid the studio's curated, comprehensive displays, a space brimming with design solutions for the whole home as well as one-of-kind accessories, upholstery, art and case goods.

Interiology Design Co.'s impressive kitchen installations illuminate Haddad's 19-year depth of knowledge and coveted CMKBD level of certification, which requires accredited instruction and ongoing education. From the fully operational Gourmet Kitchen (top), with its walnut island, motorized cabinetry and custom storage, to the contemporary Coffee Kitchen (below) with its Noisette cabinetry by Composit, it is clear the studio is a winning resource for homeowners and trade professionals alike.

Aside from the sexier considerations like aesthetics, kitchen design requires a thorough grasp of plumbing, electrical and structural aspects. "Designing a new kitchen is one of the most important investments you will make in your home," offers Haddad. "An NKBA (National Kitchen & Bath Association) certified designer can help guide you through the process."

Start your journey at The Experience Studio at 430 Main St. in Watertown or online at interiology.com.
