Your Custom-Tailored

Indulge in a little dreaming.

Join our award-winning experts in luxury interiors as we share three innovative transformations to inspire you to imagine what's possible in your own space.

Come along with us and imagine how the place you call home would feel when you custom-tailor many of the details to envelop the way you live.

Let's Begin.

1. TOTALLY REIMAGINED

Our clients felt their home was outdated and stale. They felt uninspired, and wanted to just move and start fresh. Instead, creative innovation won.

THE BIG IDEA: CHANGING ROLES OF ROOMS

We swapped roles for the main living, family and dining rooms and modified the staircase to flood the entire first floor with incredible light. The walls became a white, bright canvas for the family's art and new custom furnishings. *"We absolutely love our house now."*

1. WHAT NEEDS TO BE REIMAGINED IN YOUR HOME?

Colors

Furnishings

Room Usage

Kitchen

Baths

Lighting

2. HOW WOULD YOU WANT IT TO FEEL?

Calm

Energized

Playful

Glamorous

Formal

Soothing

2. TAILOR-FIT STATIONS

In this kitchen, the flow was constrained, with unused square footage that wasn't working for this busy family's lifestyle.

THE BIG IDEA: MAKING ROOM FOR EVERYTHING

By removing one wall, we created stunning, custom-tailored functional spaces to fit how the family lives. The stations we created:

- Chef's Dream Zone
- Elegant Entertaining Focal Point
- Coffee and Beverage Station
- Butler's Pantry
- Canine Corner
- Custom Mud Room

"We now use every inch of our home. It feels open, and perfect, for all of us."

3. WHO WOULD YOU TAILOR STATIONS FOR?

The Kids/Grandkids

The Pups

The Chef

The Collector

The Gardener

The "Boss"

4. WHAT TYPE OF ZONES DO YOU NEED?

Dressing

Dining

Cooking

Relaxing

Working

Playing

3 RE-MASTERED BATH

This 1920's home had lots of character, but an old relic of a bath. The clients wanted a true master bath, and dreamed of an *Old-World* soaking tub. They thought their dream was futile because they didn't want to expand the home's footprint or change the exterior.

THE BIG IDEA: NEW ELEGANCE WITH OLD-WORLD CONSTRAINTS

By reclaiming a closet, we had ample space for a grand master bathroom filled with luxurious finishes and the client's beloved Carrera marble. Everything about the new space is elegant, yet it retains a classic feel that doesn't sacrifice function for beauty.

5. WHAT IS YOUR DREAM?

More Space

More Storage

More Light

More Function

More Character

More Beautiful

6. HOW WOULD YOU DESCRIBE THE ATMOSPHERE?

Open

Modern

Classic

Fresh

Relaxing

Stunning
